Nucleus®

Third-party integration

Nucleus interfaces with a wide range of practice management (PM) and electronic medical record (EMR) systems, securely sending data to and receiving data from those systems.

We provide this integration at no cost to you, though you may incur costs from the third-party vendors.

20+ vendors

These vendors and solutions can have some degree of interface or integration with Nucleus. Actual functionality may vary from solution to solution.

Allscripts	DST Healthcare	MIMS
Aria (Varian)	Genius Doc	Misys Tiger
C&S Research Corp.	Impac Mosaiq	Next Gen
Centricity	IntelliDose	OncoEMR (Altos)
Civitech	Intergy	Pulse Pro
CRT	Medical Manager	QCMD
CureMD	Meditab	Rabbit

Four types of interface

ADT

Receives patient demographic information from your PM/EMR system.

EMR

Receives patient orders and Medical Administration Records for dispensing, and updates where applicable.

Charge

Sends patient charge records to the billing software to be processed to the payer.

SIU

Receives scheduling information from the EMR or PM system.
